

Amendments to the Drawings:

Fig. 2 has been amended to indicate that the control block 11 implements the image output processing as shown in the flow chart of Fig. 2, as per the disclosure in the specification.

Fig. 3 has been amended to indicate that the image processing apparatus 10 limits an image area for determination of an image processing condition according to the specified output image size within the image read by the image reading apparatus, as per the disclosure in the specification.
